Vignos Lower Extremity Rating Scale Clinical Classification

National Cancer Institute

Source

National Cancer Institute. *Vignos Lower Extremity Rating Scale Clinical Classification*. NCI Thesaurus. Code C130305.

A standardized 10-item clinician rating scale for the assessment of lower extremity function in patients diagnosed with neuromuscular disease. The scale was developed by Vignos, et al. in 1963 to evaluate ability and methods used for elevation and ambulation in patients with childhood progressive muscular dystrophy.
