Potential competing interests: No potential competing interests to declare.

1. The most striking finding or result should be included in the summary. Depending on this, recommendations can also be mentioned.
2. In the introduction, the concept of entrepreneurship is included, but no information about the concept of social entrepreneurship is given. In this context, it is important to include the literature on the concept of social entrepreneurship. Because social entrepreneurship education in higher education institutions has recently emerged as a very important concept.
3. It didn't make sense to me to start the findings part directly with the obstacles.
4. Conclusion section can be written in more detail
