

Review of: "Digital Mapping of Resilience and Academic Skills in the Perspective of Society 5.0 for Higher Education Level Students"

Zeng Xiaochun

Potential competing interests: No potential competing interests to declare.

The paper is easy-to-follow and generally well written.

1. Literature review should be more critical - instead of simply writing what means what better present the current state of knowledge and (most importantly) identify the research gap.

2.What is Digital Resiliency
