

Review of: "[Review Article] Nanocarriers for Protein and Peptide Drug Delivery"

Krupa Kansara

Potential competing interests: No potential competing interests to declare.

In this manuscript, the authors discussed the Nanocarriers for Protein and Peptide Drug Delivery. They discussed potential nanocarriers approaches and different nanomaterials. However, related works with more precision have already shown (for instance, J. Phys. Chem. B 2023, 127, 9, 1857–1871; <https://doi.org/10.1016/j.cclet.2022.05.032>, <https://doi.org/10.1016/j.cis.2023.102848>). The novelty (or advantage) of the present work is not so clear to me. Therefore, I cannot recommend the paper for publication.
