Bioactive Enzymes-based Mouthwash

National Cancer Institute

Source

National Cancer Institute. *Bioactive Enzymes-based Mouthwash*. NCI Thesaurus. Code C28868.

Formulated for oral hygiene, Biotene Mouthwash contains antibacterial enzymes that boost natural salivary antibacterial defenses, protects teeth and gums, and provides relief or prevents dry mouth (xerostomia) induced by some drug therapies, as well as by acute renal failure, bone marrow transplant, hypertension, kidney dialysis, stroke, and radiation therapy. (NCI04)
