Title: Factors Associated with Contraceptive Use Among Migrant Female Head Porters in the Kumasi Metropolis	Appropriate, My suggestion is:  Factors Associated with Contraceptive Use Among Migrant Female Head Porters in the Kumasi Metropolis, Ghana
Abstract	Fair
Introduction	<p>The literature on the determinants of contraceptive use is very minimum.</p> <p>What is the contribution of the paper to the existing body of knowledge on contraception.</p>
<p>Contraceptive utilization is usually low among young women, peaks among women in their late twenties and thirties, and declines the women ages</p> <p>Middle-aged women, however, exhibit a growing interest in space childbearing and the desire to excel in their careers.</p> <p>The last two decade has witnessed a new trend of migration in the major Ghanaian cities of Accra and Kumasi (Awumbilla et al 2008; Afriyie et al., 2015)</p> <p>Young girls between the ages of 12 and 30 from northern Ghana evade major cities in a bid to accumulate money to learn a trade to acquire property for marriage.</p> <p>. Other researchers reveal that young girls migrant to engage in the head porter business as a means of escaping Female Genital Mutilation and forced marriages (Edwin et al., 2016; Anarfi &amp; Adjei, 2009; Opare, 2010).</p> <p>NHIS subscription relieves people women of the burden of out-of-pocket payment for contraceptive services when they do not have money.</p>	<p>Grammatical errors on these sentences. The whole paper requires editing.</p>
	No information about the study site.

Methodology	<p>You need to explain how the variables were derived. Mainly how the outcome variable was derived. Did you include both modern and traditional methods?</p> <p>How was the variable knowledge of HIV computed?</p>
	<p>The following headings should be on new pages: Introduction</p> <p>Data collection</p> <p>Results</p>
Ethical considerations	<p>If possible, include the ethical clearance number. Also talk about the risks, beneficence, anonymity of the study participants</p>
Results	<p>Table 2 to fit on one page</p> <p>Of the total population, how many reported using contraceptive methods and how many reported not using?</p>
Limitations	<p>What are the limitations of your study.</p>
General comments	<p>The paper needs revision and must be edited</p>
Paper score rating	3
