## **Introduction**

The "silent killer disease." should be a "silent killer disease."

Around the world, should read globally.

Diabetes,.....should read diabetes mellitus.

Nearly 30% of adults in Douala, Cameroon, fail to achieve HTN control, whereas among those diagnosed, 35% do not receive appropriate treatment...should read...Nearly 30% of adults in Douala, Cameroon, fail to achieve HTN control, whereas among those diagnosed, 35% do not receive appropriate treatment.

Otherwise, a well-written manuscript.
