

Review of: "Enhancing Corporate Cohesion with Ta'awun through Outdoor Activities for Senior Managers"

Ernest Abaho

Potential competing interests: No potential competing interests to declare.

An interest management area is relevant in the current globalized working environment and flattened management structures. However, the authors do not present the concept of Ta'awun and how it directly translates from sociology to management and team building. I also expected to read more of the philosophical underpinnings of the study so that I can relate it to the context and conclusions generated.

Kindly add the methodology, results, and discussions so that the conclusions are validated.
