Gordon Setter

National Cancer Institute

Source

National Cancer Institute. *Gordon Setter*. NCI Thesaurus. Code C53876.

The Gordon Setter is the only black and tan setter. It has a feathered coat and a long, chiseled and massive head. The coat color should always be black with clearly differentiated tan markings. The long, slightly pointed ears hang flat beside that head. Feet are cat-like, with arched toes and well furnished with hair. Height: 23-27 inches (58-69 cm.) Weight: 45-80 pounds (20-36 kg.)
