Potential competing interests: No potential competing interests to declare.

No textual information is found regarding Figure 1

Figure 1 which explains about the through steps about the article/research is not visible clearly, so it has to improve

Figure 1 placed in wrong position

Research gap need to be identified

How many evaluation metric you took ? what about the other evaluation metric you wrote in section 4.1 (accuracy, precision, recall, F1-score, and Mean Squared Error (MSE), among others)

what is sequence length in table 1, Table 1 needs to be explained properly.

Others figures need to improve for clear vision

Did the author evaluated your model to check whether it is statistically significant ?

Will be better if the author compare their results with existing works
