Potential competing interests: No potential competing interests to declare.

Title should be changed, and tables of regression should be arranged properly. Pie charts for vaccine coverage or vaccine types are not that necessary.

In the abstract, it's Wollof, but in the table, it was Wolof in Table 1.

In the first line of the introduction, Covid-19 was mentioned for coronavirus infection. It should be coronavirus disease 2019.

Background should be funnel-shaped with global, regional, and local data.

EPI strategies for increased coverage of Covid vaccination is another issue and not matched with the title. It can be another article by a qualitative approach.
