# Script-based communication

Behaviour Change Intervention Ontology (BCIO)

## Source

*[Behaviour Change Intervention Ontology \(BCIO\)](#)*

**Definition:** A communication which follows a pre-written sequence of instructions that are interpreted or carried out by a person or by a program.

**Comment:** This class involves tightly following a set of written instructions. It is different to structured communication style, which is a pre-planned style but not to the extent of using a written script.

*This definition was imported from the Behaviour Change Intervention Ontology (see <https://bciosearch.org/>). Comments and suggestions for improvements are welcome using the Qeios review system.*

*Definitions imported from the Behaviour Change Intervention Ontology (BCIO) are what are known as 'ontological definitions'. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.*

*Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.*

*Definitions also often require elaboration to make it clear how they should be used and what they include. In those cases we include a comment.*

*Also, definitions sometimes require an explanation as to how they came about to help users understand how they relate to alternative definitions. In those cases we include a curator note.*
