

Peer Review

Review of: "A Review of Grouper Fisheries Management in the Southeastern and Caribbean U.S.: Challenges, Successes, and Future Directions"

Joy Young¹

1. Florida Fish and Wildlife Conservation Commission, Florida City, United States

Overall, an excellent review paper, well-cited and thoughtful. Specific comments are provided in the document. Some areas could use some clarifying language, and while I understand that publicly available information was used, I would encourage the author to also look into NOAA and NMFS reports that may not be available through the SEDAR website.
