

Review of: "Severe Cutaneous Adverse Drug Reactions"

Wiqar Shaikh

Potential competing interests: The author(s) declared that no potential competing interests exist.

1. This article is actually a review article and is not a case based or clinic / hospital based study. Therefore, that this is a Review article should be mentioned in the heading.
2. The authors mention Lyell's syndrome in the early part of the article. However, this has not been discussed in the main article or in the Discussion. Lyell's syndrome must be added to the main portion of the article.
3. This article could be accepted after necessary corrections have been made.
