Review of: "QMH (Quantifying Mental Health) Key Technologies"

Xingsi Xue[1]

1 Fujian University of Technology

This topic is of interest, and I put forward three suggestions as follows:

1. The abstract is too long, please make the revision on it to ensure it is concise and logically consistent.

2. The motivations behind your proposals are unclear, which should be illustrated by overviewing the similar works.

3. On this basis, I suggest you to highlight the contributions in Introduction.
