**Potential competing interests:** No potential competing interests to declare.

First of all, the article is good to see Sudan from political perspective. However, the writer of this paper could make this article better by revising some points. First, please add your research methodology in the abstract one or two sentences. Second, the introduction is too short to capture the whole idea of this paper. Therefore, please add 1) research methodology 1 paragraph; 2) elaborate the novelty of the paper by adding some previous works; 3) state clearly your research questions.

Second, the description on Islam is too limited, especially in the sub-chapter 5.1. Please add some information about the phenomenon of Islamism. As we know that Sudan is a country with 91% its population is Muslim. So, the writer could not avoid to discuss this phenomenon.

Finally, the writer could add also the phenomenon of Islam and Islamism in the conclusion.
