

# Review of: "Factors influencing variable symptoms of COVID-19 patients and proposed revision of public policy for COVID-19 pandemic"

Dr.Hitesh Singh Singh

Potential competing interests: No potential competing interests to declare.

Writer try to represent well organised form of the article, but some of the issue need to correct

- (1) Please use scientific language.
- (2) Update current situation of COVID-19 cases and mortality.
- (3) can used graphical representation of SARS-COV2 infection and immunity actions.
- (4) Need to add WHO data for vaccinated population.
- (5) Add variants of SARS-CoV variants and reinfection of COVID-19.
- (6) Need to explore outcome of vaccination and its side effects. Nee to add different type of vaccine used for SARS-COV2 infection.
