

Review of: "Throwing is affected by self-movement"

Samiha Amara

Potential competing interests: No potential competing interests to declare.

I congratulate the authors, this is a very interesting work, the manuscript is pretty well finished, but it lacks some precision...

Abstract:

(DOR effect) The full word must be mentioned before the abbreviation

Introduction

The introduction needs to be improved and developed even more.

Line 2 Page 2: Please, add references.

It is necessary to move the equations in the method part and add equations references.

Have you used these equations in your study? If not, why did you mention it and what is its use?

Methods

You must group and better organize the method part in a single section.

Resultat

Missing figure 2.

Please, move figure 4 in the result part.

Discussion

The discussion to be improved.

I suggest major revision.
