Subject: Minor Revision Recommendations for Manuscript

Dear Editor

I hope this message finds you well. I have carefully reviewed your manuscript titled " Synthesis, Characterization and Ameliorative Effect of Iron Oxide Nanoparticles on Saline-Stressed Zea Mays." I appreciate the depth of your research; however, I have a few suggestions for improvement before we proceed with acceptance. The revisions requested are minor in nature and can be addressed in your revised manuscript. Please find the specific comments below:

1. The authors should emphasize that this study is original before the purpose.
2. Please rewritten the aim in introduction section it is very unclear.
3. Please written all the abbreviations under figures and tables.
4. Clarify Normality Tests: please confirm whether normality tests were conducted, and if so, please provide relevant details. Also Please write which trial design you used.
5. Emphasize your suggestions for future studies in conclusion.How can your study be a road map for future studies?

I believe these revisions will strengthen the overall quality of your manuscript.

Best regards,
