Investigator

National Cancer Institute

Source

National Cancer Institute. *Investigator*. NCI Thesaurus. Code C25936.

An individual who conducts scientific research. In a clinical setting this individual actually conducts and/or supervises the clinical investigation and study-related procedures. The investigator monitors the safety of the trial subjects and investigational staff (under whose immediate direction an agent is administered or dispensed to a subject). The investigator collects and analyses data and study documents, and provides reports in compliance with applicable requirements.
