Potential competing interests: No potential competing interests to declare.

I will go for a detailed review after preliminary revision:

1. Manuscript is not in proper format
2. Nomenclature part is not appropriate
3. Equations need formatting,
4. Check spelling and syntax errors
5. Two-column tables are not acceptable, and information is not appropriate
6. Include latest citations up to 2024 in literature review
7. Resubmit for detailed review
