Potential competing interests: No potential competing interests to declare.

This topic is very interesting and essential for understanding the concept of intelligence and, above all, for extending it to skills other than academic ones.

- Can you clarify how the inclusion of specific examples or case studies related to BCCT and the Quantum teaching model might enhance the understanding of these concepts within the article?
- What specific aspects of the literature review's methodology, such as search terms or databases used, do you think should be detailed to improve the transparency and reproducibility of the research?
- Could you suggest specific socio-economic variables that should be included in the study, and how their inclusion might impact the findings?
