

# Review of: "A review of centenarian studies"

Ana Canedo

**Potential competing interests:** The author(s) declared that no potential competing interests exist.

The article provides useful and interesting information, however the content are not organized in order to bring a scientific conclusion, folowing a clear methodology. It will be important to include a Table of the studies to make the presentation and comparison of results more clear, with statistcs information. A discussion is necessary to reach the mainly conclusions.
