Review of: "Can ChatGPT code the technical part of a Bachelor's Thesis in Informatics?"

Naveen Kumar[1]

1 Sardar Vallabhbhai National Institute of Technology

- Limited generalizability due to narrow focus on a specific discipline.

- Technical oversight raises questions about ChatGPT's adaptability.

- Dependence on user proficiency may limit accessibility.

- Conduct a broader literature review to contextualize the study.

- Address technical limitations and explore ChatGPT's adaptability.

- Investigate ChatGPT's efficacy across diverse academic domains.

- Validate findings through peer review or replication studies.
