## Major Corrections Are Needed

### Abstract

- Rewrite the abstract in this procedure, be specific, and write it in summary form:-

1. Introduction
2. Problem
3. Mythology
4. Results,

### Introduction

1. In this section, the introduction should start with a general overview of the subject, then a literature survey containing the most relevant work is proposed, followed by the gap and the steps or methods used to solve the gap. Please re-write the introduction by following this procedure.
2. It was preferred that you put at the end of the introduction a section summarizing the objective of your work and the steps or methods you used to reach the goal of the research. In this part, you will summarize what will be accomplished in a group of points that explain the gap and the importance of the work done in resolving this gap.

### Paper Layout

Make sure you use the justify option to write the paper; there are a lot of unequal lines, and the layout is not justified.

### Comparison with the Relevant Work

- Add this section before the conclusion. Summarize in a table a comparison between your work and the relevant works in the field, associating the results, and use up-to-date work.
- With a short paragraph, summarize the outperforms of your proposed methods to other works or methods.

### References

1. Most of the references are old; use up-to-date references.
2. Use at least 20 references.

**Conclusion:-** Rewrite the conclusion in this procedure, be specific, and write it in summary form:-

Step 1: Restate the problem

Step 2: Sum up the paper with the key points and results obtained

Step 3: Discuss the implications and future work
