The research paper is good and needs some modifications, as follows:

- 1- Modify the title to "Design of a Wireless Sensor Network (WSN)-based Smart Motorbike Parking System for a Multilevel Building at Universitas Pendidikan Indonesia".
- 2- Mention numerical results of the success of the proposal in the abstract.
- 3- The figures are not clear and need clarification and scientific explanation.
- 4 -It is necessary to implement a classical or intelligent control system to ensure the accuracy of the garage's main doors.
- 5- The discussion is scientifically weak and needs to show the strength of the work.
- 6 The research was not compared with similar published works.
