# Leukoencephalopathy with brain stem and spinal cord involvement-high lactate syndrome

INSERM

## Source

*INSERM. (1999). Orphanet: an online rare disease and orphan drug data base.*

*Leukoencephalopathy with brain stem and spinal cord involvement-high lactate syndrome. ORPHA:137898*

This disease is characterised by progressive cerebellar ataxia with pyramidal and spinal cord dysfunction, associated with distinctive MRI anomalies and increased lactate in the abnormal white matter.
