The quality of the language in the context of grammar, syntax and spelling is solid, however, when reading the paper I occasionally get a certain impression of confusion.

Certainly, the manuscript is written in a way that shows that the author has considered different perspectives and thoughtfully evaluated the evidence and arguments he presented.

The idea is original and differs from previous papers on a similar topic, i.e. the paper brings new knowledge and contributes to the development of the research area.

The paper presents the way in which the study contributes to previous journal research. By
