Gram per Week

National Cancer Institute

Source

National Cancer Institute. *Gram per Week*. NCI Thesaurus. Code C89829.

A dose administration rate unit equal to the rate at which a gram of a product is delivered or administered over the time period of one week. This is also a unit of mass flow rate equivalent to the rate at which a gram of matter crosses a given surface or is delivered to a given object or space over a period of time equal to one week.
