

# Review of: "A Study on Consumers' Perception of Food Delivery Platforms"

Marwan Saleh Alluhaidan

Potential competing interests: No potential competing interests to declare.

This paper presents a study on consumers' perception of food delivery platforms. It is well written and the author suggest adding some services to improve food delivery platforms. The author need to add some figures to the paper. Also, he should consider in his questionnaire other factors such as delivery speed, consumers' reviews and drivers' ratings.
