# 3-Hydroxy-3-Methylglutaryl-Coenzyme A Reductase

National Cancer Institute

## Source

National Cancer Institute. *3-Hydroxy-3-Methylglutaryl-Coenzyme A Reductase*. NCI Thesaurus. Code C54701.

3-hydroxy-3-methylglutaryl-coenzyme A reductase (888 aa, ~97 kDa) is encoded by the human HMGCR gene. This protein is involved in cholesterol synthesis.
