

Review of: "Young Builders vs. University of Delhi: A case of maintenance of balance between environment and development in housing development for the megacity of Delhi"

Mehreen Khan

Potential competing interests: No potential competing interests to declare.

The title of the article is too long. It needs to be revised.

The article clearly lacks a research paper format such as the following sections: introduction, literature review, a solid methodology, analysis and discussion of the findings. Moreover, references need to be added.

This article looks more like a report or narration of cases rather than a research article. The authors need to majorly restructure the article.
