Beehive Dispersion Dosage Form

National Cancer Institute

Source

National Cancer Institute. *Beehive Dispersion Dosage Form*. NCI Thesaurus. Code C148550.

Liquid preparation intended for in-hive use, consisting of two or more phases, at least one of which is dispersed in the liquid phase, from which the active substance(s) are released by vaporization or physical contact usually over an extended period of time. The precise method of administration of the dispersion is described in the product information.
