The paper “Sustainable Prosperity and Circular Economy in the Care of Mother Earth — The Blue Kiss” deals with a very important topic: Eco-Feminism and Its Implications for the Development of Skills, Abilities, and Capabilities of Women Included in the Circular Economy. Among other topics, it also deals with ecofeminism, circular economy, sustainable prosperity, Agenda 20-30 of the SDGs, right to the environment, social and ecological rule of law, all of them very important nowadays. The paper is very well written and has an interesting pattern. The list of references is up-to-date, and, lastly, the quality of the English language seems to me good.
