Qeios

Alberto Bedogni[1], Giorgio Bedogni[2]

1 University of Padua
2 Fondazione Italiana Fegato ONLUS

The word "Qeios" comes from "Chaos" (Greek χάος), the first of the primordial deities in Greek mythology. Coming back to Earth, that's how we see research — the starting point of all knowledge and thus actions of humanity.

At the same time, Qeios is opposing and fixing the chaos in the world of knowledge and academic publishing.
