

Review of: "Conceptualizing Toxic Positivity: A Scoping Review Protocol"

Navaneetham Navaneetham

Potential competing interests: No potential competing interests to declare.

Overall, the protocol appears to be well-prepared and fulfills most of the necessary aspects for a scoping review protocol. Few suggestions have been given as a PDF attachment. More detailed information on the inclusion and exclusion criteria, as well as the study selection process, would be appreciated. These are core aspects that are crucial for the study's transparency and will aid in the future replication of the research.
