Potential competing interests: No potential competing interests to declare.

The manuscript presents a well-founded discussion of the impacts of the COVID-19 pandemic on food production and food security.

Below are some points that should be noted.

Standardize the writing for COVID-19 or Covid-19 throughout the text.

Correct from "world health organization" to "World Health Organization"

Update the information "This will translate into a lack of food later this year and in 2021" - since we are already at the end of 2022...

For Table 1: "% Change in Volume of Agricultural Production Due to Decrease in ALF" is missing the year.

Please, include data of 2021 and 2022.
