

Review of: "Automatic Content Analysis Systems: Detecting Disinformation in Social Networks"

Bridget Malasowe

Potential competing interests: No potential competing interests to declare.

The concept of the research work is very relevant in today's online space to help users identify fake news. There was enough supporting literature in the paper, but there was no example of fake news or correct news. The author needs to state the limitation(s) of the research work as well as future work in this research direction. Example of fake news: Drinking bleach cures COVID-19.
