Potential competing interests: No potential competing interests to declare.

1. Provide some research gaps in the introduction.
2. Please explain all variables and how you categorized them. If needed, provide references.
3. Please follow some recently published papers related to your study from high-impact journals.
4. Please explain how you reached the final model. Did you use any model evaluation techniques like AUROC, multicollinearity, feature selection, P-value, etc?
5. Please explain the discussion based on your findings in brief. You can follow them:
