Reviewer Report of "Assessment of Quality, Bacterial Population and Diversity of Irrigation Water in Selected Areas of Minna, Niger State, Nigeria"

Dear Authors,

I noted my corrections in the attached file. Your manuscript is written like a technical report. All of your text needs many improvements.

*First of all, the English needs to improve. Also, grammatical errors should be corrected.

*You have to give a map of your study area.

*The discussion part is very weak. You should use more national and international references to discuss your findings.

*In addition, the conclusion part needs to improve.

Dear Editor,

I wrote my corrections for the authors and attached the file with my suggestions. Unfortunately, in this style, I cannot accept the manuscript for publication. My decision is major revision.

Best regards,

Assoc.Prof.Dr. Nese Yilmaz
