Review of: "Economics Rationality in the World of Amartya Sen"

Ricardo Crespo

Potential competing interests: No potential competing interests to declare.

I enjoyed reading this interesting article. It introduces Sen’s criticism of standard economics concept of rationality, and his proposal about it.

The description of it is correct.

Though I understand the logic of introducing the discussion on child abuse, I think that it is proportionally too long.

The paper need editing and more care in redaction and avoiding repetitions.
