Potential competing interests: No potential competing interests to declare.

Reasons for acceptance:

- Quality of Writing
- Good References and Literature Review
- Better Results and Analysis
- Clarity of Objectives

The research paper demonstrates a commendable quality of writing, maintaining clarity and coherence throughout. The results and analysis are robust, presenting transparent findings with a sound analytical approach. The clarity of objectives further strengthens the paper, providing a well-defined roadmap for the study. Overall, the paper is well-crafted, contributing significantly to the field and warranting acceptance.
