

Peer Review

Review of: "Investigating the Role of Vitamin D in the Prevention and Control of Dengue Virus Vectors and Related Diseases: A Systematic Review"

Hamid Kassiri¹

1. Ahvaz Jundishapur University of Medical Sciences, Ahvāz, Iran

1. Please revise the title: Investigating the Role of Vitamin D in the Prevention and Control of Dengue Fever and Related Diseases: A Systematic Review

2. *Because the article has one author, Authors' contributions is not necessary or must be corrected.*

EA determined the title, wrote and registered the protocol, and submitted the article. EA extracted the files from the databases. EA was responsible for screening and selection of final reports. EA was responsible for data extraction. EA wrote the article. All authors read and approved the final manuscript.

3. Because the article has just one author, the authors at the end of the article must be corrected.

4. Scientific names should be written in italicized words.

5. The situation of the disease in Iran should be written.

6. Please mention the strong points of your study.

7. Write about the limitations of your survey.

8. Please emanate proposals and precise recommendations from the study results in the conclusion part.

9. Please write the highlights of your study in the discussion.

10. Please write the author or authors, date, order, and family about scientific names.

11. Write factors that play a role in the spread of Dengue fever.
12. How can you explain that and let readers know what the novelty of your survey is?
13. Please use this article: Rouhullah Dehghani, Hamid Kassiri. A Review on Epidemiology of Dengue Viral Infection as an Emerging Disease. Research J. Pharm. and Tech. 14(4): April 2021
14. Rouhullah Dehghani, Hamid Kassiri, Rozhin Kasiri, Mousa Dehghani, Maral Kasiri. Please use this article: Global distribution of human chikungunya arbovirus infection: A review. J Acute Dis 2020; 9(4): 145-151.
15. Suggest future research directions based on the limitations identified.
16. The conclusion section could be further strengthened.
17. The discussion can be strengthened by elaborating on the implications of the findings.
