Potential competing interests: No potential competing interests to declare.

1. Kindly review the submission as the literature survey requires updating to encompass recent research findings and ensure comprehensiveness.
2. The introduction section should provide a clear background, delineate the research gap, articulate the objectives, and elucidate the novelties of the work. It is imperative to justify the novelty/originality by emphasizing the manuscript's substantial contributions to the evolving body of knowledge in the field.
3. To enhance the relevance of the analysis, it is essential to incorporate a conceptual model and framework. This will provide structure and clarity, facilitating a deeper understanding of the relationships between key variables or concepts under investigation.
4. It is imperative to strengthen the methodology by refining data collection methods, enhancing analytical techniques, and ensuring alignment with the research objectives.
