I would like to commend the authors for their efforts in writing the manuscript entitled "The Nexus between Energy Policies and Supply: A Descriptive Evaluation of Nigeria and UK Energy Sectors".

The strengths of this manuscript are the following:

- The topic is extremely interesting.
- The use of English expression is acceptable.
- The references are recent and relevant to the topic.

However, it can be improved by considering the following paths:

- The abstract should contain the aim of the study.
- The introduction could be more extensive.
- The manuscript should include implications of the study.
- The manuscript should include more references.

Overall, the manuscript is above decent. However, there are some areas for improvement that could make the paper more valuable.

Best regards,

Mr. Mehdi Bensouda.
