Potential competing interests: No potential competing interests to declare.

1. Paper can be accepted with major revisions.
2. In the Introduction section, there are subtitles named as communication systems, Positioning/Localization Systems, and Bio-imaging Systems; these all should be written like 1.1, 1.2, and 1.3. Same in further sections, it should be 2.1, 3.1, etc.
3. Improve grammar in the Introduction section.
4. More references should be added to the paper, and they must be the latest.
5. Quality of all graphs and images should be improved.
6. Measured results should be presented separately.
7. Symbols should be written in superscript or subscript.
8. Some more information should be written in the paper regarding the radiation pattern of antennas.
9. Which version of CST software is used in the simulation?
