Dear Editor in Qeios

As the reviewer of the manuscript entitled as ‘

**Groundwater Potential Zone Assessment Using Remote Sensing, Geographical Information System (GIS), and Analytical Hierarchy Process (AHP) Techniques in Fogera Woreda, South Gondar Zone, Ethiopia**” I went through the manuscript and found that it has merits to publish in an international Journal and it is in line with the Scope of your Journal. But It suffers from minor shortcomings, which I highlighted in the attached file. Overall, I am suggesting minor revisions before publication.

The best wishes
