# Choriogonadotropin Subunit Beta 3

National Cancer Institute

## Source

National Cancer Institute. *Choriogonadotropin Subunit Beta 3*. NCI Thesaurus. Code C17479.

Choriogonadotropin subunit beta 3 (165 aa, ~18 kDa) is encoded by the human CGB3, CGB5, and CGB8 genes. This protein is involved in the regulation of steroid synthesis during pregnancy.
