1. For your Abstract, please use the style like Objectives; Methods; Results; Conclusions.
2. In the Abstract, the statistical methods should be put at the end of the Methods part.
3. The Introduction part should be concise.
4. In Materials and Methods, animal quality and Ethical approval number should be provided. "Eight groups (A, B, C, D, E, F, G, and H) ", here, you should use A, B, C..... instead of 1, 2, 3.....
5. In the Results and Discussion part, one topic sentence for each result will be better.
6. For all, the study is quite preliminary, not thorough.
