Potential competing interests: No potential competing interests to declare.

It would be very important to obtain reliability and validity measures of the instruments. Remember that reliability and validity is relative to the samples being evaluated and not an intrinsic property of the instruments.

Verify or report whether the criteria for using a parametric test such as Student's t are met.

Report the effect size (e.g., Cohen's d).

In the conclusion, emphasis should be placed on the cognitive contribution; making suggestions for intervention is hasty.
